Please note that it will take approx. 5 working days, from receipt of this form, for us to switch your phone over to use World-Link. During that period, any calls you make will still be routed through your existing carrier (eircom etc). Once this service has been set up for your phone line, you will STILL receive a bill from your existing carrier for your monthly line rental, and for any call categories you have not opted to route through World-Link. For example, if you tick the 'International Calls only' option above, you will be billed by your existing carrier for your line rental, and for all local and national calls you make. Please contact our office if this is unclear.
